

Festus Fajemilo Foundation (FFF)

TWO DECADES OF DIGNITY, ACCESS AND EQUAL OPPORTUNITY

Celebrating 20 years of transforming lives, advancing inclusion,
and creating opportunities for individuals living with
spina bifida and hydrocephalus.

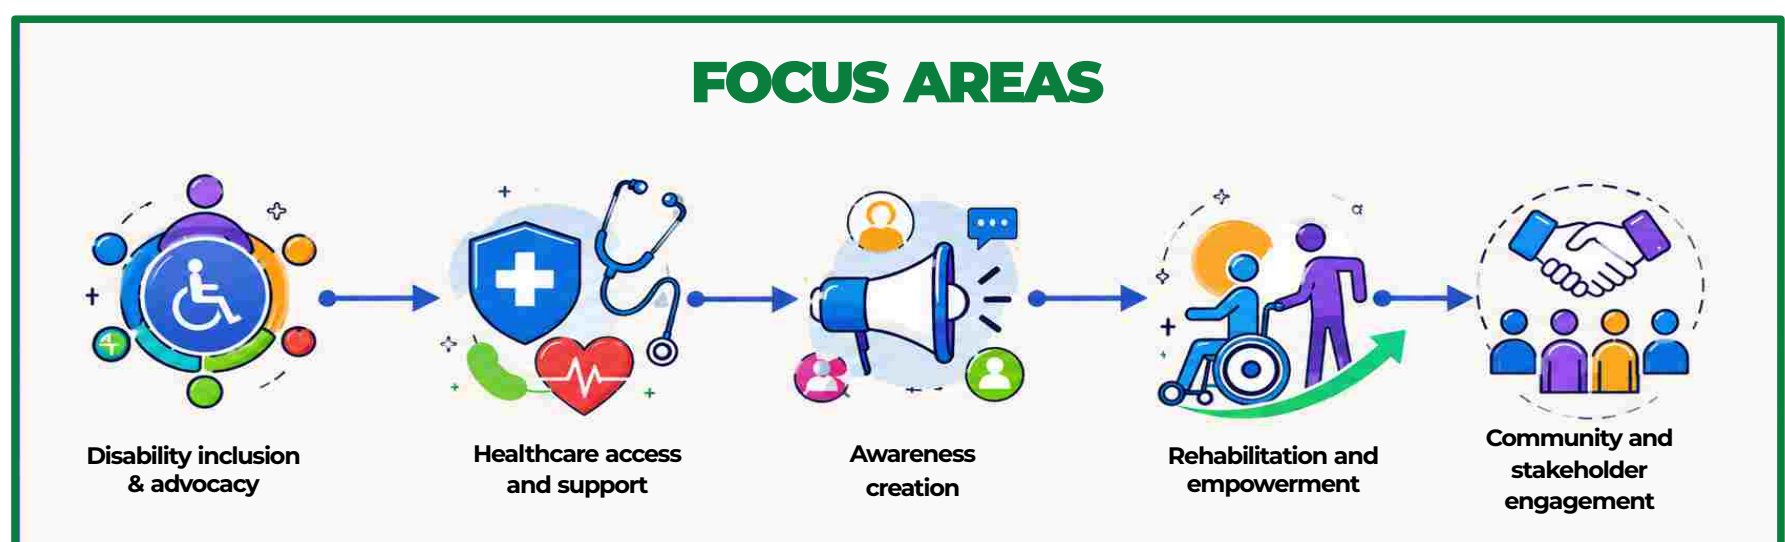

ABOUT FESTUS FAJEMILO FOUNDATION

WHO WE ARE

Festus Fajemilo Foundation is a disability-focused nonprofit organization committed to improving the lives of individuals living with Spina Bifida and hydrocephalus (SBH) through advocacy, healthcare support, awareness, rehabilitation, and inclusion initiatives.

For two decades, the Foundation has worked to promote dignity, equal opportunity, and access for underserved individuals and families across communities.

OUR MISSION

FFF is strongly committed to providing accurate strategic information on SBH and other types of disabilities for the purpose of raising public awareness and enlightenment.

The Foundation commits to providing and/or linking persons with SBH and other types of disabilities to free or highly subsidized quality services across critical sectors such as health, education, rehabilitation, vocational, transport, assistive technologies, etc. and

FFF shall maintain a strong and visible position as a major advocacy organization on the rights of persons with SBH and other types of disabilities; pushing for disability-inclusive legal, policy and institutional frameworks; disability-sensitive attitudes and behaviours, global best practices, standards, and systems as well as physical and all forms of accessibilities.

OUR VISION

A Nigeria where People with SBH and other forms of disabilities enjoy equal rights and live fulfilled and productive lives without any form of abuse, discrimination, and exclusion.

UNDERSTANDING SPINA BIFIDA AND HYDROCEPHALUS

WHAT IS SPINA BIFIDA?

Spina bifida is a birth condition that occurs when the spine and spinal cord do not develop properly during early pregnancy. It can affect mobility, bladder and bowel control, learning, and overall physical development. The severity varies from person to person, but with proper medical care, rehabilitation, and support, individuals living with spina bifida can lead productive and fulfilling lives.

WHAT IS HYDROCEPHALUS?

Hydrocephalus is a condition caused by an abnormal buildup of fluid in the brain, leading to increased pressure that can affect brain function and development. It can occur independently or alongside spina bifida and often requires ongoing medical attention and specialized care. Early diagnosis and treatment are critical in improving quality of life.

THE REALITY TODAY

Many individuals and families affected by spina bifida and hydrocephalus still face:

- ✔ Limited access to quality healthcare
- ✔ Stigma and discrimination
- ✔ Financial burden of treatment and rehabilitation
- ✔ Barriers to education and employment
- ✔ Inadequate awareness and support systems

These challenges make advocacy, inclusion, and sustained intervention more important than ever.

WHY AWARENESS MATTERS

Through advocacy, awareness campaigns, healthcare support, community engagement, and strategic partnerships, Festus Fajemilo Foundation is championing:

Dignity for persons living with disabilities

Equal opportunities and inclusion

Access to healthcare and rehabilitation

Awareness and policy conversations

Hope and support for affected families

THE NEED FOR ACTION

According to global health estimates, spina bifida and hydrocephalus affect thousands of children and families annually worldwide.

In many developing countries, access to early diagnosis and specialized care remains limited.

Increased awareness, early intervention, and community support significantly improve outcomes and quality of life.

A SHARED RESPONSIBILITY

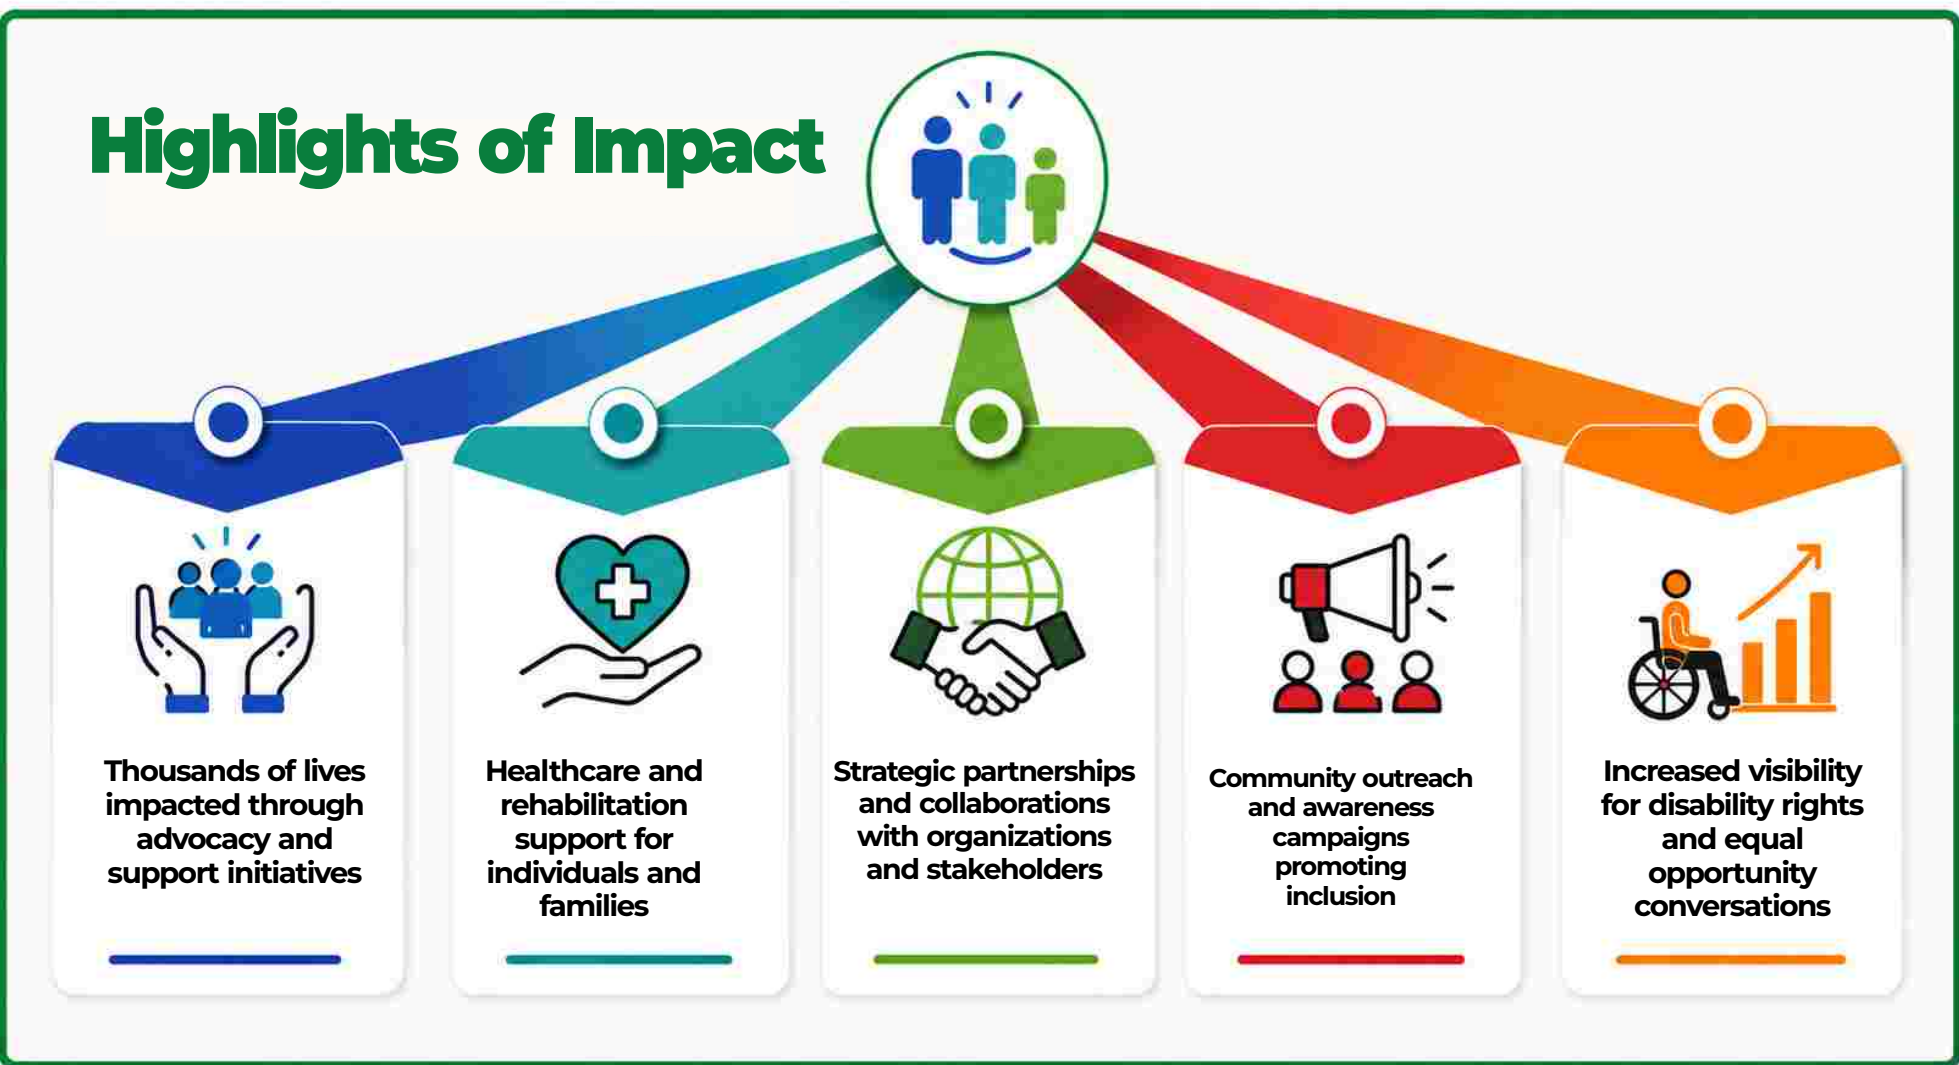

Creating a more inclusive society requires collective action from governments, healthcare institutions, corporates, communities, and individuals.

Together, we can build a future where every individual regardless of physical condition has access to dignity, healthcare, opportunity, and the support needed to thrive.

20 YEARS OF IMPACT

Two Decades of Meaningful Change

Over the last 20 years, the Foundation has continued to create sustainable impact through life-changing interventions, awareness initiatives, stakeholder collaborations, and direct community engagement.

THE CHALLENGE

Why the Work Still Matters

Despite growing awareness, many individuals living with disabilities still face significant barriers to healthcare, education, mobility, employment, and social inclusion.

Limited access to resources, stigma, and insufficient support systems continue to affect the quality of life of many families.

This anniversary is an opportunity to amplify conversations around inclusion, dignity, accessibility, and equal opportunity for all.

THE OPPORTUNITY – 20TH ANNIVERSARY

More Than a Celebration

The 20th anniversary presents a unique opportunity to:

Showcase two decades of impact and resilience

Strengthen stakeholder and community engagement

Expand visibility and media presence

Attract funding, sponsorship, and strategic partnerships

Position the Foundation for greater future impact

This milestone is designed not only to celebrate the past, but to strategically build the future.

IMPACT WEEK OVERVIEW

A 5-Day Curated Anniversary Experience

20th - 25th October 2026

A thoughtfully designed week of activities aimed at driving awareness, engagement, advocacy, and fundraising.

Launch & Press Briefing

"Stride for Inclusion" Impact Walk

Stakeholders & Partners Roundtable

Virtual Webinar & Global Conversations

Conference, Gala & Awards Night

Sunday 25th October 2026

"World Spina bifida and Hydrocephalus Day"

Each activity is designed to create meaningful engagement while amplifying the Foundation's mission and impact.

SIGNATURE ACTIVATION

STRIDE FOR INCLUSION WALK

A high-visibility advocacy and community engagement walk designed to promote awareness, acceptance, and support for persons living with disabilities.

Key Objectives

- ✓ Increase public awareness on disability inclusion
- ✓ Drive community participation and engagement
